BLUE

# SERVICES

## Question:

Are you looking for a reliable and experienced IT company that can provide you with a range of services?

Royale Blue provides customized and innovative solutions for your clients' vision. We design, develop, implement and integrate solutions using various domains and technologies.

### Cyber Security Services & Solution:

We can protect your network and data from cyber threats, such as malware, ransomware, phishing, etc. We can also support you with implementing with GRC based on authority regulations, framework & Multiple Standards.

### AV & LC Solutions:

We can design, install and maintain audiovisual & low current systems for your various sectors. We can also provide you with video conferencing, interactive displays, Video Walls, LED Walls, ACS, Electronic Security Solutions, CCTV and more.

### Data Center & Network Infrastructure:

We can set up and manage your data center and network infrastructure, ensuring high performance, reliability and security. We can design & implement your on-prim/cloud IT infrastructure, VPN, VoIP, Call Center Solutions and more.

### Procurement & Supply:

We can provide you with hardware and/or software solutions for your servers, storage, desktops, laptops, printers, etc. We can also offer you maintenance and support & licensing services.

### Consultation & Technical Support:

We can advise you on the best IT solutions for your specific needs and budget. We can also help you with IT strategy, planning, implementation and evaluation.

# OUR PARTNERS

Here are some of the partners that we are **honored** to work with:

We are proud to work with some of the most innovative and reputable companies in the industry. Our partners share our vision of delivering high-quality products and services that meet the needs and expectations of our customers. Together, we create value and impact through collaboration, innovation, and excellence.

We are looking forward to being your solutions partner and building a long-term relationship with you.

Thank you for choosing us as your IT solutions provider.
